

Alan Hiroshi Nakagawa

Artist: Alan Hiroshi Nakagawa

Title: Ear Meal

Date(s): 2010-present

Physical Description: Archived and live-streamed experimental music and sound art

Project Description: "Starting in 2010, Ear Meal Webcast's goal was to document the Los Angeles experimental music and sound arts community. In addition to the performances, they have photo documented the artists visit to our studio and conducted oral histories of the majority of the artists. Once they complete 300 (or close to) shows, they will prepare the collection and look for a suitable institution to archive. For now, all of the past performances are available at the laartstream.com site."

The ipod in this exhibition presents two selections from Ear Meal Webcasts:

1. "Braid" by Susan Joseph (from Season Six)
2. An untitled webcast with Newton (from Season Seven)

Also on display are two selections from Alan Hiroshi Nakagawa's mail art that he has distributed freely as one of a kind or hand-printed artworks since the mid-1990s.
